

# EURO MAINTENANCE

International Maintenance Conference & Exhibition

The European Federation of National Maintenance Societies vzw, EFNMS vzw, is an official non-profit organization under Belgian Law and is the umbrella organization for currently 21 National Maintenance Societies in Europe. EFNMS vzw launched this successful event decades ago: the organization of the congress is assigned every two years to different countries. The 20th edition of Euromaintenance is held in Italy, and organized by Aiman and Eiom.

Verona / Italy,  
12-14 May 2010

Euromaintenance 2010 is the most important international event on maintenance, covering all the Maintenance topics related to Industries, Facilities and Infrastructures.

AIMAN, Association in charge of the organization, is from 1959 the Italian National Maintenance Association.

EIOM, founded in 1956, is the Italian leading private organizer of events, conferences and fairs on technical and industrial topics.

## Call for Speakers

### Conference Program Outlines

High Quality Sessions, is our mission as organizers.

- through each national maintenance association

[www.euromaintenance.org](http://www.euromaintenance.org)

## The Exhibition

### Euromaintenance 2010

In the heart of Mediterranean, still in the center of European Production

Euromaintenance 2010 takes place in Verona, the most important fair Venue in the north-eastern Italy and the first exhibition direct organizer in Italy, with its ultra-modern Congress Center offering up-to-date services and solutions.

The Veneto zone, in the center of the North-East, is also Italy's most dynamic region and if including the close Lombardia here you have the most important and productive Industrial European Area – for number of industries, services offered and wealth produced.

The beautiful Verona is at the same time industrial and historical town, really close to Milano (1,4 hours by car), Bologna (1 h), Venice and its port / petrochemical Marghera (1 h), in a zone that sees important industrial plants (Chemical and Petrochemical, Paper, Pharmaceutical) as well as some major process and manufacturing industries (Cement, Food & Beverage etc.). Still, the Verona area can offer some of the most beautiful richness in Italy: the Venice Canali, l'Arena di Verona, the Garda Lake etc. And Italy's position grants the event maximum results in reaching operators from the entire Mediterranean Area.

### The Exhibition: an occasion not to be missed

Save the date, and do not miss the occasion to book a stand at Euromaintenance 2010.

#### Euromaintenance 2008 datas:

- 200 companies
- 5000 attending visitors
- More than 700 top level operators from abroad (47 countries)

The lower cost-per-contact of the market

## Sponsorship Opportunities

### Sponsorship Formulas

By choosing one of the sponsorship formulas foreseen...

- Your brand and company will be closely associated with a world class event on maintenance, production reliability and asset management
- You'll have plenty of opportunities to meet hundreds of high level maintenance & asset managers

### Excellent Maintenance

### Key driver for the Competitiveness and Sustainability of your Company

I am pleased to announce Euromaintenance 2010.

The 20th edition of this biennial Maintenance Congress & Exhibition will focus on how each company will be able to use maintenance to be more and more competitive in the framework of sustainable development to achieve a better quality of the life inside and outside of the operational assets. You will learn from Experts and World Class Maintenance Managers how to develop and implement effective maintenance strategies, according to the H.S.E. rules, using lean management tools, how to decrease total manufacturing cost by increasing asset availability, and how to set up services and partnerships that really work with high satisfactory. Euromaintenance 2010 will focus also on Health and Safety in the framework of the "European Healthy Workplaces campaign on Safe Maintenance", in collaboration with OSHA (the European Agency for Safety and Health at Work).

It doesn't matter what level of experience you have with maintenance - there is something here for everyone and always more than you expect.

Top companies already understand that an Excellent Maintenance is key driver for Competitiveness & Sustainability in a global market.

That's why we are convinced that Euromaintenance 2010 will contribute to the future of your company.

I look forward to welcoming you at Euromaintenance 2010. I am sure that your stay in Verona will be professionally profitable and enjoyable, having also the possibility to visit the near Venice, Florence and Rome.

Don't miss this unique opportunity!

See you in Verona
