

The EFNMS European Certification Committee (ECC) will arrange a Work Shop and a practical demonstration for representatives from all EFNMS Member Societies in Stockholm, Sweden.

There is an increasing interest for the EFNMS Certification of Maintenance Professionals. However, up to now there are a limited number of Member Societies which have used this possibility. Those Societies that have had the opportunity to study the certification exams in practice have a much better understanding how to arrange those exams in their own countries.

The EFNMS European Certification Committee has therefore decided to have a Work Shop and a practical demonstration in Stockholm, Sweden, in September 2010. Please, take this unique opportunity to get all the information you need to arrange these certifications in your own country!

The Work Shop

will be arranged on Wednesday the 8th of September, as follows:

- 12:00-13:00 Lunch
- 13:00-13:50 An introduction about the EFNMS Certification process
- 14:00-14:40 Industrial leaders will explain why they support the certification
- 14:40-15:00 Coffee break
- 15:00-15:15 A representative from a training company will explain their approach
- 15:15-15:45 Certified people will explain their experiences
- 15:45-16:30 Open discussion

18:00-22:00 Evening program with dinner on a ship in the Stockholm archipelago

A practical demonstration of the exam

will be arranged on Thursday the 9th of September, as follows:

- 08:30-09:15 Participation as observers in the introductory part of the exam in Maintenance Management
- 09:15-09:45 Coffee and open discussion
- 09:45-12:00 Introduction to the exam for Maintenance Technician Specialists, inclusive a practical demonstration of the validation tool used for the exam (You can use your own PC to test the system)
Introduction of the usage of the validation in accordance with the EQF (European Qualification Framework) and for identification of competence gaps among the employed technicians
- 12:00-13:00 Lunch
- 13:00-20:00 Free time
- 20:00-21:00 Participation as observers in the marking exercise of the results

A practical demonstration of the technician exam

will be arranged on Friday the 10th of September, as follows:

- 08:30-09:30 Participation as observers in introductory part of the exam for Maintenance Technician Specialists
- 09:30-10:00 Coffee and open discussion

The above mentioned activities are free for the NMS representatives However, we have to know who is going to participate not later than the 24th of August, 2010.

More detailed information will be sent to you shortly.

This is a unique possibility for those of you who up to now have not got this examination in your own countries.

Please, remember that the EFNMSvzw Certification is recognized as the most prestigious certification possibility of maintenance professionals that exist.

WELCOME !
